

My Ether Wallet

- 1 - Follow Rosecoin.io of this wallet
- 2 - Click “Send Ether & Tokens”

- 3 - In field “How would you like to access your wallet?”
Choose “Keystore File(UTC / JSON)”, select your wallet
press “Unlock” and login to your account.

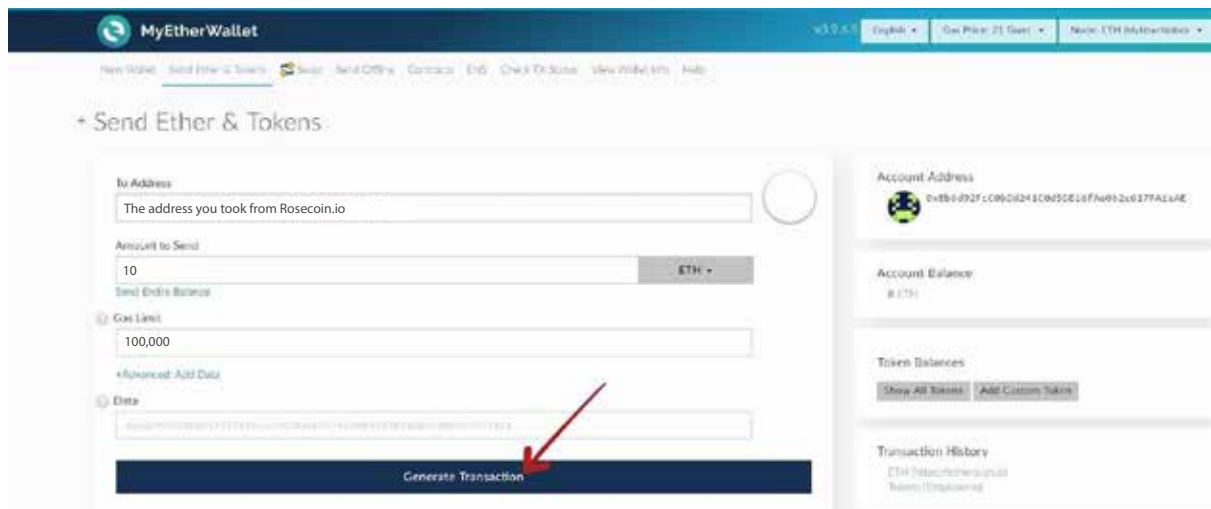

- 4 - Now, enter the address you took from Rosecoin.io

5 - Choose the amount of Ether you'd want to send, "gas limit" would be set automatically.

The screenshot shows the MyEtherWallet interface for sending Ether. The 'To Address' field contains 'The address you took from Rosecoin.io'. The 'Amount to Send' field is set to '10' ETH. The 'Gas Limit' is set to '100,000'. A red arrow points to the 'Amount to Send' field. The 'Generate Transaction' button is at the bottom.

6 - Click "Generate Transaction" to complete task

The screenshot shows the same MyEtherWallet interface. A red arrow points to the 'Generate Transaction' button at the bottom of the form.

7 - The contribution is done. You can check the details in "Transaction History" in your wallet account
