

Mist

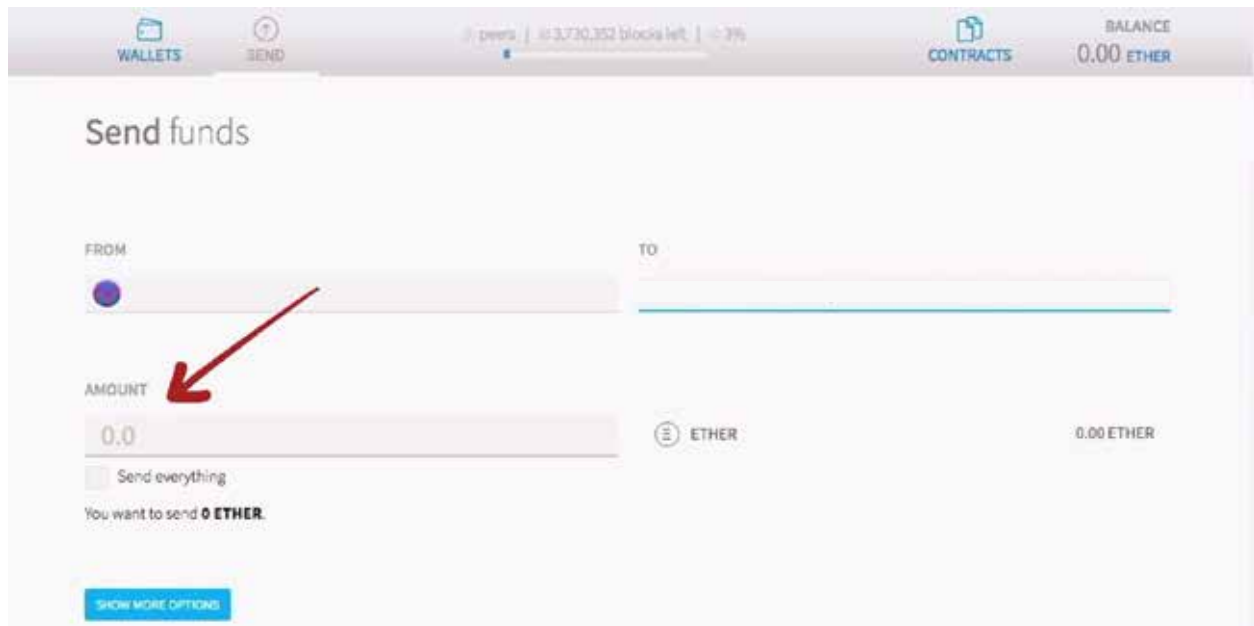

1. Open your Mist application
2. Click the “Send” tab on top panel

3. Enter the address, that you took from Rosecoin.io and field “to”
4. Choose the wallet, from which you would like to send funds

5. Choose the amount of Ether you'd want to send

The screenshot shows the 'Send funds' screen of a wallet application. At the top, there's a navigation bar with 'WALLETS', 'SEND', and 'CONTRACTS' tabs. The 'SEND' tab is active. On the right, the 'BALANCE' is shown as '0.00 ETHER'. The main area is titled 'Send funds'. It has two input fields: 'FROM' (with a dropdown arrow) and 'TO' (with a text input field). Below the 'FROM' field, there's an 'AMOUNT' input field with '0.0' entered. A red arrow points to this field. To the right of the 'AMOUNT' field, there's a currency selector showing 'ETHER' and a balance of '0.00 ETHER'. Below the 'AMOUNT' field, there's a checkbox labeled 'Send everything' and a confirmation text 'You want to send 0 ETHER.'. At the bottom left, there's a blue button labeled 'SHOW MORE OPTIONS'.

6. Set up the Fee on the Fee bar. Try to avoid the “cheaper” end of the bar, because you might be too slow to purchase

The screenshot shows the 'SELECT FEE' interface. It features a horizontal slider bar. Above the bar, the text 'SELECT FEE' is displayed. Below the bar, the current fee is shown as '0.285 ETHER'. The slider has two endpoints: 'CHEAPER' on the left and 'FASTER' on the right. A dark grey circle represents the current fee selection, positioned towards the 'FASTER' end of the bar.

7. Click “Send”, after that you will see details of your transaction. Make sure everything is OK, enter transaction and click “Send” once again.
8. Now your contribution is done, you may check the details in “Transaction History” in your wallet account.
