

# Parity

1. Open Parity
2. Go to “Accounts” and select the one, from which you want to transfer your Ether

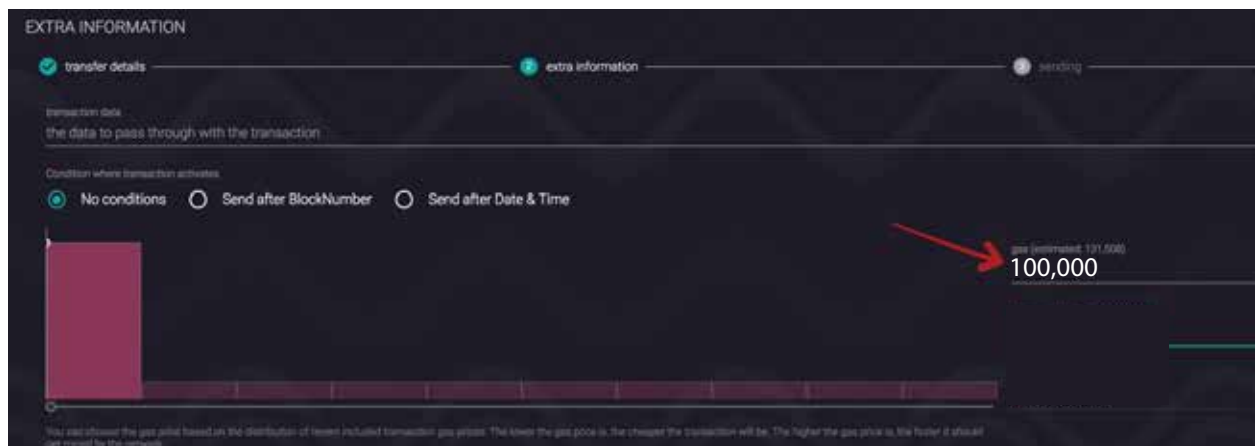

3. Click “Transfer”
4. Just as before, **make sure you use address from Rosecoin.io** enter it in “recipient address” field. In “Type of token transfer” should be “Ethereum”.

5. Choose the amount of Ether you want to send, click the “enable advanced sending options” box, click “Next”,

6. Enter 100,000 in “Gas” field, click “Send”

7. Now all you have to do, is confirm the transaction by entering your password

8. Check the details in “Transaction history” if needed.
